

# The fusion Gas Stove

**PACIFIC  
ENERGY**

- BTU Input 24,000
- Direct Vent Top convertible to Rear
- Optional Programmable Thermostatic Remote Control
- Modulating Flame

*Optional Rear Vent with Trivet Shown*

Pacific Energy's New Fusion Gas Stove is the perfect answer for those looking for both heat and a fresh, contemporary look in a smaller free-standing gas stove.

Be captivated by the look of a real log fire, and pleasantly surprised by the heat, with its adjustable flame and heating output and optional programmable thermostatic remote control system.

The Fusion Gas Stove is versatile, venting from either the top or rear, to fit beautifully into any space or any decor. Available in sleek Stainless Steel, in five rich Porcelain Enamel finishes and Metallic Black.

PACIFIC ENERGY FIREPLACE PRODUCTS LTD.

## STANDARD FEATURES

- Clean European-inspired Styling
- Brilliant Flame & Glowing Logs
- Clean face with no louvers or trim
- BTU Input of 24,000, with 50% turndown
- Powerful, variable heat and flame control
- Low clearances to combustibles allow installation flexibility
- Premium low-glare ceramic glass for safety and unobstructed view

## CHOICES

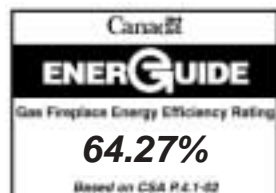

- Five rich Porcelain Enamel colors, sleek Stainless Steel or Metallic Black finish
- Top Venting convertible to Rear
- Natural Gas convertible to Propane

## OPTIONS

- Temperature actuated 125 cfm variable speed fan
- Fusion Gas Vent Cap
- Programmable Handheld Remote

## PROGRAMMABLE THERMOSTATIC REMOTE SYSTEM

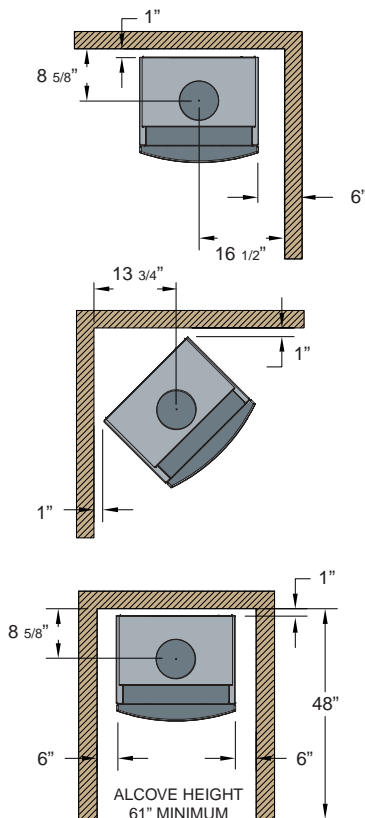

Optional programmable Thermostatic Remote Control System gives you three ways to control heat and flame: Thermostatic temperature set point for furnace-like heating, dual time period scheduling for convenient comfort, and manual control at your fingertips. Wall mounted Thermostat Holder included.

## Ready for the Perfect Spot in Your Home

The Fusion Gas Stove, with its tidy size, 1" back wall clearances, and top direct venting gives you the freedom to choose the perfect spot in your home. Conversion to rear venting places vent pipe virtually out of sight.

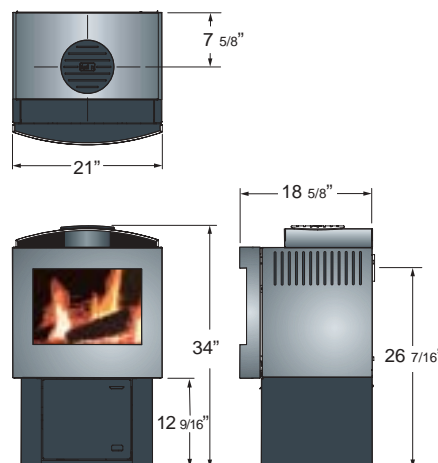

## CLEARANCES

## TOP OR REAR VENTING

## STOVE DIMENSIONS

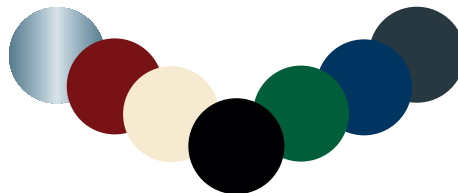

Stove Weight: 155 lbs.

## Start with a Great Finish

The Fusion Gas Stove adapts to your décor through a choice of finishes, including the contemporary look of Stainless Steel, five rich colors in Porcelain Enamel, and Metallic Black.

Pacific Energy's porcelain stoves in Black, Ivory, Blue, Green and Sunset Red are guaranteed to retain their luster for a lifetime.
