

PACIFIC ENERGY BURN UNIT PROGRAM

As we all know, customers like to see a stove or insert operating before they buy. People have an easier time imagining how warm and cozy their Pacific Energy stove will be when they see those dancing, glowing flames. Without question, a showroom demonstrator is one of the best sales tools available. With this in mind, we'll help you defray the cost of operating our units in your showroom.

- Procedure:**
- Attach a photo of the burn unit in operation
 - Your account must be current
 - The unit must be installed and burning from Sept. 1 to Feb. 28
 - This claim must be submitted no later than **March 31**
 - CREDITS WILL BE ISSUED AFTER Mar 15 UPON RECEIPT OF CLAIM
 - If you are claiming more than one Burn Credit, please submit a form for each claim
