

DIRECT-TEMP®

Metalbestos® Direct Vent System

Includes 5x8 and co-linear

*Direct-Temp® sets the standard
with our New Laser Precision
Designed Direct Vent System.*

Featuring:

- Siliconized fiberglass seal
- 304 stainless welded seam inner flue
- LockTab® security
- Pipe rotates easily to align system components
- Quick no-sealant needed installation
- High efficiency performance

THE BEST DIRECT VENT LIFETIME WARRANTY IN THE INDUSTRY!

Direct-Temp® is Omni, ITS/Warnock Hersey or CSA tested and accepted for use with most major brands of direct vent appliances.

For a complete listing, visit us at www.directtemp.com,
www.selkirkusa.com or www.selkirkcanada.com

SETTING THE STANDARD FOR DIRECT VENT SYSTEMS

Solid relationships are built on integrity, performance and trust. Selkirk® has now developed the Direct-Temp® Direct Vent System which sets the standard with our New Laser Precision Construction.

Integrity

Unique to today's market, Direct-Temp® provides exceptional corrosion protection and virtually no leakage due to an inner stainless steel liner. Stainless steel permits precision manufacturing tolerance, ensuring tight seals and added structural integrity of the system. Our liner has a continuously welded seam, which is superior to lock seam designs that may leak.

Performance

Our engineers set out to surpass the performance requirements of the industry with unique features found only in our direct vent system. Direct-Temp® is ideal for both sidewall and conventional through-the-roof venting solutions, and has been engineered for optimum appliance performance.

Trust

Perfecting the design of the Metalbestos Direct-Temp® system is indicative of Selkirk's commitment as the most trusted supplier for over 80 years. Backed by a Limited Lifetime Warranty, exceptional customer service and technologically superior products, Selkirk is the name to trust.

WHAT MAKES THE DIRECT-TEMP® SYSTEM UNIQUE?

Chamfered edges allow for easy slide-together assembly.

Centering brackets are not welded or riveted in place, creating a more attractive outer jacket and a smooth profile. The free-floating inner liner allows the pipe to expand and contract under high temperature, without creating gaps or stress points in the system.

Our proprietary siliconized fiberglass seal adds an extra layer of protection to ensure combustion products won't leak out.

Outer walls are constructed of heavy duty galvanized steel and are available in powder coat black or unpainted versions.

Heavy duty centering brackets keep inner pipe centered for easy assembly. Brackets also allow the inner pipe to float, allowing for expansion and contraction.

The 304 stainless steel seam-welded inner pipe provides exceptional corrosion resistance and enhances overall system integrity.

Our LockTab® is a unique design that allows for 360° rotation while securely locking the sections of pipe together with just a push of the tab.

**ALL BACKED BY THE

Two Components that will Revolutionize the Pellet Industry

Selkirk's New Direct Vent System for Pellet Appliances

Selkirk's revolutionary Direct-Temp® direct vent system for gas appliances is now also UL listed for pellet burning appliances. Our two new innovative components will allow you to convert any pellet appliance into a simpler, cleaner and more efficient direct vent system.

ADVANTAGES - DIRECT-TEMP® for Pellet

- Inherent design of Direct-Temp® eliminates fly ash into room
- 1" clearance to combustibles
- Preheats intake air for more efficient combustion
- Gasketed joints eliminate need for messy sealant
- One installation includes outside air for combustion
- Single stack looks more like a wood burning stove

Patent Pending

Order Catalog # SDTPELLETB or call your Customer Service Representative for more information

CONDITIONS OF SALE

GUARANTEE

All Selkirk venting products are now backed with a Lifetime Limited Warranty. Please refer to the warranty included with the product for specific details or contact customer service for a copy.

PRICES & DISCOUNTS

See our price list and discount sheet for current pricing information. Orders will be invoiced at prices in effect at time order is placed. All prices subject to change without notice. All Selkirk L.L.C. products may be combined to achieve required discount levels.

CREDIT

Shipments will be made on open account to those firms with established credit ratings with us.

RESPONSIBILITY

Selkirk L.L.C. cannot assume responsibility for loss or damages to products in transit or for delays of carriers delivering our products. In case of loss, visible or concealed damage, you as a consignee must report such loss to carrier at once and file a claim.

FREIGHT

All shipments are F.O.B. our facilities.

RETURNED GOODS

No merchandise may be returned for credit without prior written permission, shipping instructions and return authorization number. All items authorized for return must be in new and resalable condition in unopened cartons and transportation charges must be prepaid. A 25% restocking charge will be made on all returns to cover the costs of handling and inspection. Up to a 15% refurbishment charge will be applied as needed.

BROKEN CARTONS

Any order requiring quantities of product less than a complete carton will be charged an additional fee. Please contact your local representative for pricing.

TRANSPORTATION

Method of transportation and shipping point will be decided by Selkirk L.L.C. If our customer requests special routing, the order will be shipped prepaid and charged.
