# ASELKIRK. Type "B" Gas Vent Simply The Best... GV-22 

Round and oval gas vent pipe and fittings for residential, commercial and industrial applications.

- Snap together non-positional lock system
- Die formed ends
- Venting gas fired appliances, water heaters, furnaces, stoves, etc.
- LockTab ${ }^{\circledR}$ - An alternative method to secure pipe when required by local code.

## Round Vent Pipe 3" through 8" <br> 3-8

Metalbestos ${ }^{\circledR}$ RV round vent pipe is a Listed Type " $B^{\prime \prime}$ "gas vent pipe. Lengths avvilable range from 6 inches to 5 feet. Its adjustable fittings and standard short lengths eliminate all cutting, ititing and special engineering. An improved joint design provides for a rapid and secure connection in seconds. The use of our "LockTab ${ }^{\oplus \prime}$ feature gives installers the option of engaging this tab instead of using sheet metal screws.

QC
Round Vent Pipe 10" through 48"
Metalbestos $Q$ Q round vent pipe is a Listed Type "B" gas vent pipe. Maximum weight is only 26 lbs . per foot ( 48 " diameter). 18 "and 30 " lengths combine to produce required heights. Adiustable lengths eliminate cutting and fititing and provide expansion joints between fixed support points on long pipe runs.

WV
Oval Vent Pipe 4", 5" and 5"/6" 12-14
Metalbestos ${ }^{\otimes}$ WV oval vent pipe, sizes $4 ", 5 "$ and $5 " / 6$ " provides the venting capacity of 4 inch, 5 inch and 6 inch round vent pipe. 4 " WV is listed for both Type "B", and Type "BW", use/installation in a $2 \times 4$ wall. 5 " WV is Listed for Type " $\mathrm{B}^{\prime \prime}$ use/installation in a $2 \times 4$ and $2 \times 6$ wall. $5 " / 6$ " WV is listed for Type " B " use/installation in $\mathrm{a} 2 \times 6$ wall.

## DWC

## Double Wall Flexible Wall Connector 15

Metalbestos ${ }^{\circledR}$ DWC Double Wall Flexible Gas Vent Connector pipe is available in $3^{\prime \prime}, 4^{\prime \prime}, \& 5^{\prime \prime}$ diameters in $2^{\prime}, 3^{\prime}, 4^{\prime}, \& 5^{\prime}$ lengths designed for easy connection to standard Type B Gas Vent. DWC is now Listed for use as a "segment" of an unenclosed Type B gas vent system and is fully safety cerifified for use in conditioned and/or unconditioned attics and crawl spaces. DWC can simplify alignment of most installations by enabling a quick and easy offset between sections of rigid gas vent.

## Rugged Construction

Strong, durable galvanized steel outer pipe has internal spacing beads to assure a uniform insulating air space between pipe walls. Each end is die formed to assure uniform sizing for strong, easy to connect joints which resist wasteful handling and shipping damage.
The inner aluminum pipe is attached to the outer pipe at only one end. This arrangement allows for differential expansion between the two pipes, eliminating operational noises.

## Assured Safety

The double wall (pipe within a pipe) construction with its built-in air space, provides permanent insulation and keeps the inner pipe hot and the outer pipe relatively cool. Such construction creates quick, strong vent action, eliminates condensation in the pipe or overheating of nearby enclosure suffaces.
With special factory supplied parts, 4" WV oval pipe can be installed at less than one inch clearance to combustible suffaces as a Type $B$-W vent for recessed wall furnaces or os a Type " $B$ " vent through $2 \times 4$ walls.

## Fully Tested and Listed

Metalbestos ${ }^{\circledR}$ Gas Vent pipe and fittings have been tested and listed per UL 441 for installation as Type " $B$ " and $B-W$ gas vents to be installed in single and multi-story buildings in accordance with the standards of The National Fire Protection Association NFPA54 and NFPA211.

They must be enclosed in occupied portions of a building. When the enclosure is made of combustible moterial, sizes $3 "-24$ " diameter pipe must have 1 " clearance and sizes 26 " $-48^{\prime \prime}$ diameters must have 2 " clearance. Refer to Metalbestos ${ }^{\circledR}$ illustrated installation instuctions for proper procedures.

## Warning

The products in this catalog are only for use on approved gas burning equipment. Do not use any gas vent on oil or woodburning appliances. These fuels can produce temperatures which may damage the gos vent with resulting hazard to both life and property. These gas vents are not suitable for use when sealed, pressure type, or leakproof systems are called for. For residential "high efficiency" gas burning appliances which may need sealed systems, Type " B " vents may be used only if allowed by the appliance manufacturer's installation instructions.

# SPECIFICATIONS FOR VENTING APPROVED GAS BURNING APPLIANCES WITH TYPE "B" GAS VENT PIPE 

[^0]appliances' outlets into the Metalbestos ${ }^{\circledR}$ vent top of housing. Metalbestos® gas vent piping shall be installed in full compliance with the terms of its Underwirters' Laboratories, Inc. Listing, with the manufacturer's installation instructions, and with nationally recognized building codes representing good practice for such installations.

The feature involves incorporating a "LockTab"" in the female end of each gas vent section and accessories.

The LockTab ${ }^{\ominus}$ feature was developed in response to customer feedback concerning the use of sheet metal screws to secure gas vent sections. In many areas of the U.S., the use of sheet metal screws is either a commonly accepted practice or a local requirement. The use of $1 / 4$ " sheet metal screws is expensive and time-consuming for installers. The use of our new LockTab ${ }^{\circledR}$ feature gives installers the option of engaging this tab instead of using sheet metal screws.

To use the LockTab ${ }^{\circledR}$ feature, RV Gas Vent sections are assembled in the usual manner, then the LockTab ${ }^{\circledR}$ is depressed with a thumb or blunt object like a screwdriver into the lock channel of the male end of our pipe. To disengage the LockTab ${ }^{\circledR}$, pry it up using a screwdriver or knife blade.

You should understand that the LockTab ${ }^{\circledR}$ does not affect the functionality of our current RV lock system. The decision to use or not use the LockTab® feature is totally optional.

We feel that the current non-positional lock system on Metalbestos ${ }^{\circledR}$ RV Gas Vent is the best lock system on the market today. The incorporation of a LockTab ${ }^{\ominus}$ feature simply
improves our lock system by adding flexibility and meeting market needs.

## EXCLUSIVELY METALBESTOS

RV

## 3" THROUGH 8"

The RV line of Metalbestos ${ }^{\circledR}$ round vent pipe and fittings is designed for use on approved gas appliances in residential and light commercial and industrial applications. Round vents for large appliances will be found in the QC section which follows.
NOTE: Size refers to the inside diameter of the pipe or fitting. The outside diameter of RV is approximately $1 / 2$ " larger. Outer material is 28 GA galvanized steel. Inner liner is aluminum.
LOCKTAB ${ }^{\oplus}$ - You no longer have to use sheet metal screws to secure pipe connections if local codes require you to. Just press the "LockTab" ${ }^{\oplus}$ and you are done.

## 10" THROUGH 48"

The QC line of Metalbestos ${ }^{\circledR}$ vent pipe and fittings is designed for large residential, industrial and commercial applications. Round vents for smaller appliances will be found in the preceding RV section.

NOTE: Size refers to the inside diameter of the pipe or fitting. The outside diameter is approximately 1" larger. Many QC components larger than 24 " are not listed. Please have customer service contact manufacturing if you have special requirements.

## wv

』METALBESTOS。
4", 5" AND 5"/6"
The WV line of Metalbestos ${ }^{\circledR}$ oval pipe and fittings is designed for in-the-wall construction. 4" WV Oval may be installed in a $2 \times 4$ wall with factory-supplied spacing parts and provides the capacity of a $4^{\prime \prime}$ round vent. The $5^{"}$ can be installed in a $2 \times 4$ OR a $2 \times 6$ stud wall with factory-supplied spacing parts and provides the capacity of a $5^{\prime \prime}$ round vent. $5^{\prime \prime} / 6^{"}$ oval may be installed in a $2^{\prime \prime} \times 6^{\prime \prime}$ wall and provides the capacity of either a $5^{\prime \prime}$ or a $6^{\prime \prime}$ round vent.
NOTE: The size given for oval pipe corresponds to the diameter of a round pipe of equal area.

## Oval Pipe

| Size | Product No. | Part No. | Lengths |
| :--- | :---: | :---: | :---: |
| $4^{\prime \prime}$ | 154060 | 4WV-5 | Pipe - $5^{\prime}$ |
|  | 154048 | 4WV-4 | Pipe - 4' |

## Double Wall Flexible Wall Connector 3" THROUGH 5"

Metalbestos ${ }^{\oplus}$ DWC Double Wall Flexible Gas Vent Connector pipe is available in $3^{\prime \prime}, 4^{\prime \prime}, \& 5^{\prime \prime}$ diameters in $2^{\prime}, 3^{\prime}, 4^{\prime}, \& 5^{\prime}$ lengths designed for easy connection to standard Type B Gas Vent. DWC is now Listed for use as a "segment" of an unenclosed Type B gas vent system and is fully safety certified for use in conditioned and/or unconditioned attics and crawl spaces. DWC can simplify alignment of most installations by enabling a quick and easy offset between sections of rigid gas vent.

## THE ONLY THING MORE FLEXIBLE THAN OUR DWC CONNECTOR.

With the ease of a child's toy, the Metalbestos Model DWC Double Wall Flexible Gas Vent Connector greatly simplifies most gas vent installations. Model DWC provides an economical alternative to making offsets between sections of rigid gas vent in Type "B" gas vent systems.

Model DWC has now received an additional Underwriter's Laboratories, Inc. (UL) Listing for use as a "segment" of an unenclosed system and is fully safety certified for use in conditioned and/or unconditioned attics, crawl spaces and furnace closets. This new listing was created in response to requests to qualify DWC for uses other than just a connector.

With its flexible design, this connector system eliminates the need for elbows and reduces height interference normally associated with rigid gas vents.

## Flex connector pipe is available in

 $3^{\prime \prime}, 4^{\prime \prime}, \& 5^{\prime \prime}$ diameters and in 2', $3^{\prime}$, 4', \& 5' lengths designed for easy connection to standard Metalbestos Type "B" Gas Vent
## NEW!

UL Listed as an
"Unenclosed Segment of a Gas Vent System"

## CONDITIONS OF SALE

## GUARANTEE

All Selkirk venting products are now backed with a Lifetime Limited Warranty. Please refer to the warranty included with the product for specific details or contact customer service for a copy.

## PRICES \& DISCOUNTS

See our price list and discount sheet for current pricing information. Orders will be invoiced at prices in effect at time order is placed. All prices subject to change without notice. All Selkirk L.L.C. products may be combined to achieve required discount levels.

## CREDIT

Shipments will be made on open account to those firms with established credit ratings with us.

## RESPONSIBILITY

Selkirk L.L.C. cannot assume responsibility for loss or damages to products in transit or for delays of carriers delivering our products. In case of loss, visible or concealed damage, you as a consignee must report such loss to carrier at once and file a claim.

## FREIGHT

All shipments are F.O.B. our Facilities.

## RETURNED GOODS

No merchandise may be returned for credit without prior written permission, shipping instructions and return authorization number. All items authorized for return must be in new and resalable condition in unopened cartons and transportation charges must be prepaid. A $25 \%$ restocking charge will be made on all returns to cover the costs of handling and inspection. Up to a $15 \%$ refurbishment charge will be applied as needed.

## BROKEN CARTONS

Any order requiring quantities of product less than a complete carton will be charged an additional fee. Please contact your local representative for pricing.

## TRANSPORTATION

Method of transportation and shipping point will be decided by Selkirk L.L.C. If our customer requests special routing, the order will be shipped prepaid and charged.
