**For round, air-
cooled chimneys**

Chimney Type:

Double wall
Triple wall

Size:

6" to 12" standard diameter
Custom sizes available

Material:

Austenitic stainless steel;
other alloys, including
marine stainless and copper,
are available

STAINLESS STEEL CAP FOR ROUND CHIMNEYS

Vacu-Stack® is the premier
chimney cap for solving common
wind-related chimney draft
problems. Wind-induced downdraft
can cause smoke to enter the
living space when:

- Hills and mountains are in the vicinity
- Tall trees are near the chimney
- Tall buildings are nearby

Vacu-Stack® also functions as a
conventional chimney cap by
protecting the chimney from rain,
snow, debris, and animals.

Note: Optional stainless steel
spark arrester is required in some
states. 1" x 1" screen mesh is
standard; nominal 1/2" x 1/2"
mesh also available.

**Technology in action...
since 1971.
Effective solutions for
residential, industrial,
and commercial
chimney draft problems.**
